# ***Training Service Support Contract***

## ***TSS Briefing***

# ***Training Service Support Contract***

**The TSS Contract is a five-year, Firm-Fixed Price (FFP), Multiple Award Indefinite Delivery, Indefinite Quantity (IDIQ) contract that was awarded in July 2011 with a ceiling of \$490M. This contract streamlines services and gains efficiencies by consolidating TSS support requirements across the various Live, Virtual, Constructive, and Gaming (LVC&G) domains at home stations and Combat Training Centers (CTCs) by allowing the Army to leverage contracted support capabilities at Army installations. The contract provides support for training through the Sustainable Range Program, CTC's Leader Training Program, Battle Command Training Program, Soldier Training Program, and Training Development Capabilities.**

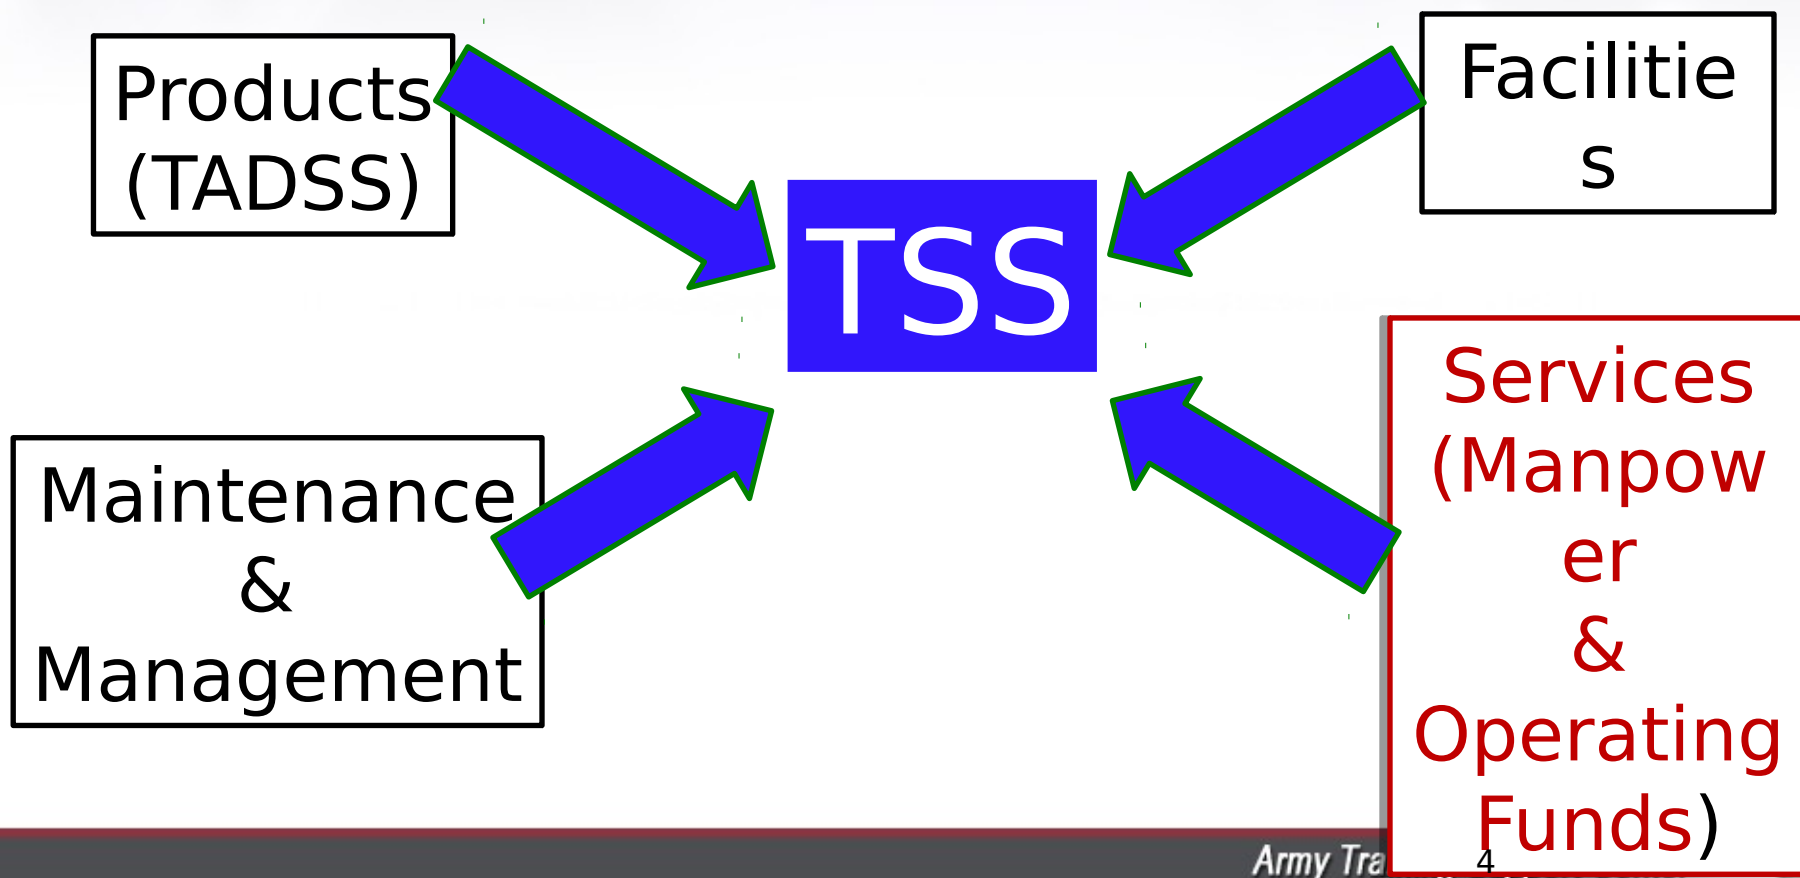

# ***Agenda***

- **TSS Overview**
- **General Contract Management**
- **Executed Task Orders**
- **Questions**

# **Training Support System (TSS)**

*System of Systems  
Components*

# ***TSS Service Contract “Lineage”***

# ***TSS Programs***

- CTC Modernization: Instrumentation/TADSS
- Sustainable Range Program: Home Station Range Operations & Modernization
- Soldier Training Support Program: Individual and Small Unit live and virtual TADSS; Training Support Center Operations
- Mission Command Training Support Program: Battle Command Training Center Operations; Collective Virtual TADSS; Constructive TADSS; Live, Virtual, Constructive Integrated Training Environment
- Sustainable Range Program: Integrated Training Area Management (ITAM)
- Training Information Infrastructure (TII): Army Training Information Systems & Learning Delivery Systems

# **TSS Programs - Contract Applicability**

CTC Modernization: Instrumentation/TADSS

Sustainable Range Program: Home Station Range Operations & Modernization

Soldier Training Support Program: Individual and Small Unit live and virtual TADSS; Training Support Center Operations

Mission Command Training Support Program: Mission Command Training Center Operations; Collective Virtual TADSS; Constructive TADSS; Live, Virtual, Constructive Integrated Training Environment

Sustainable Range Program: Integrated Training Area Management (ITAM)

Training Information Infrastructure (TII): Army Training Information Systems & Learning Delivery Systems

TSS Use: High Medium Low

# ***TSS Efficiencies***

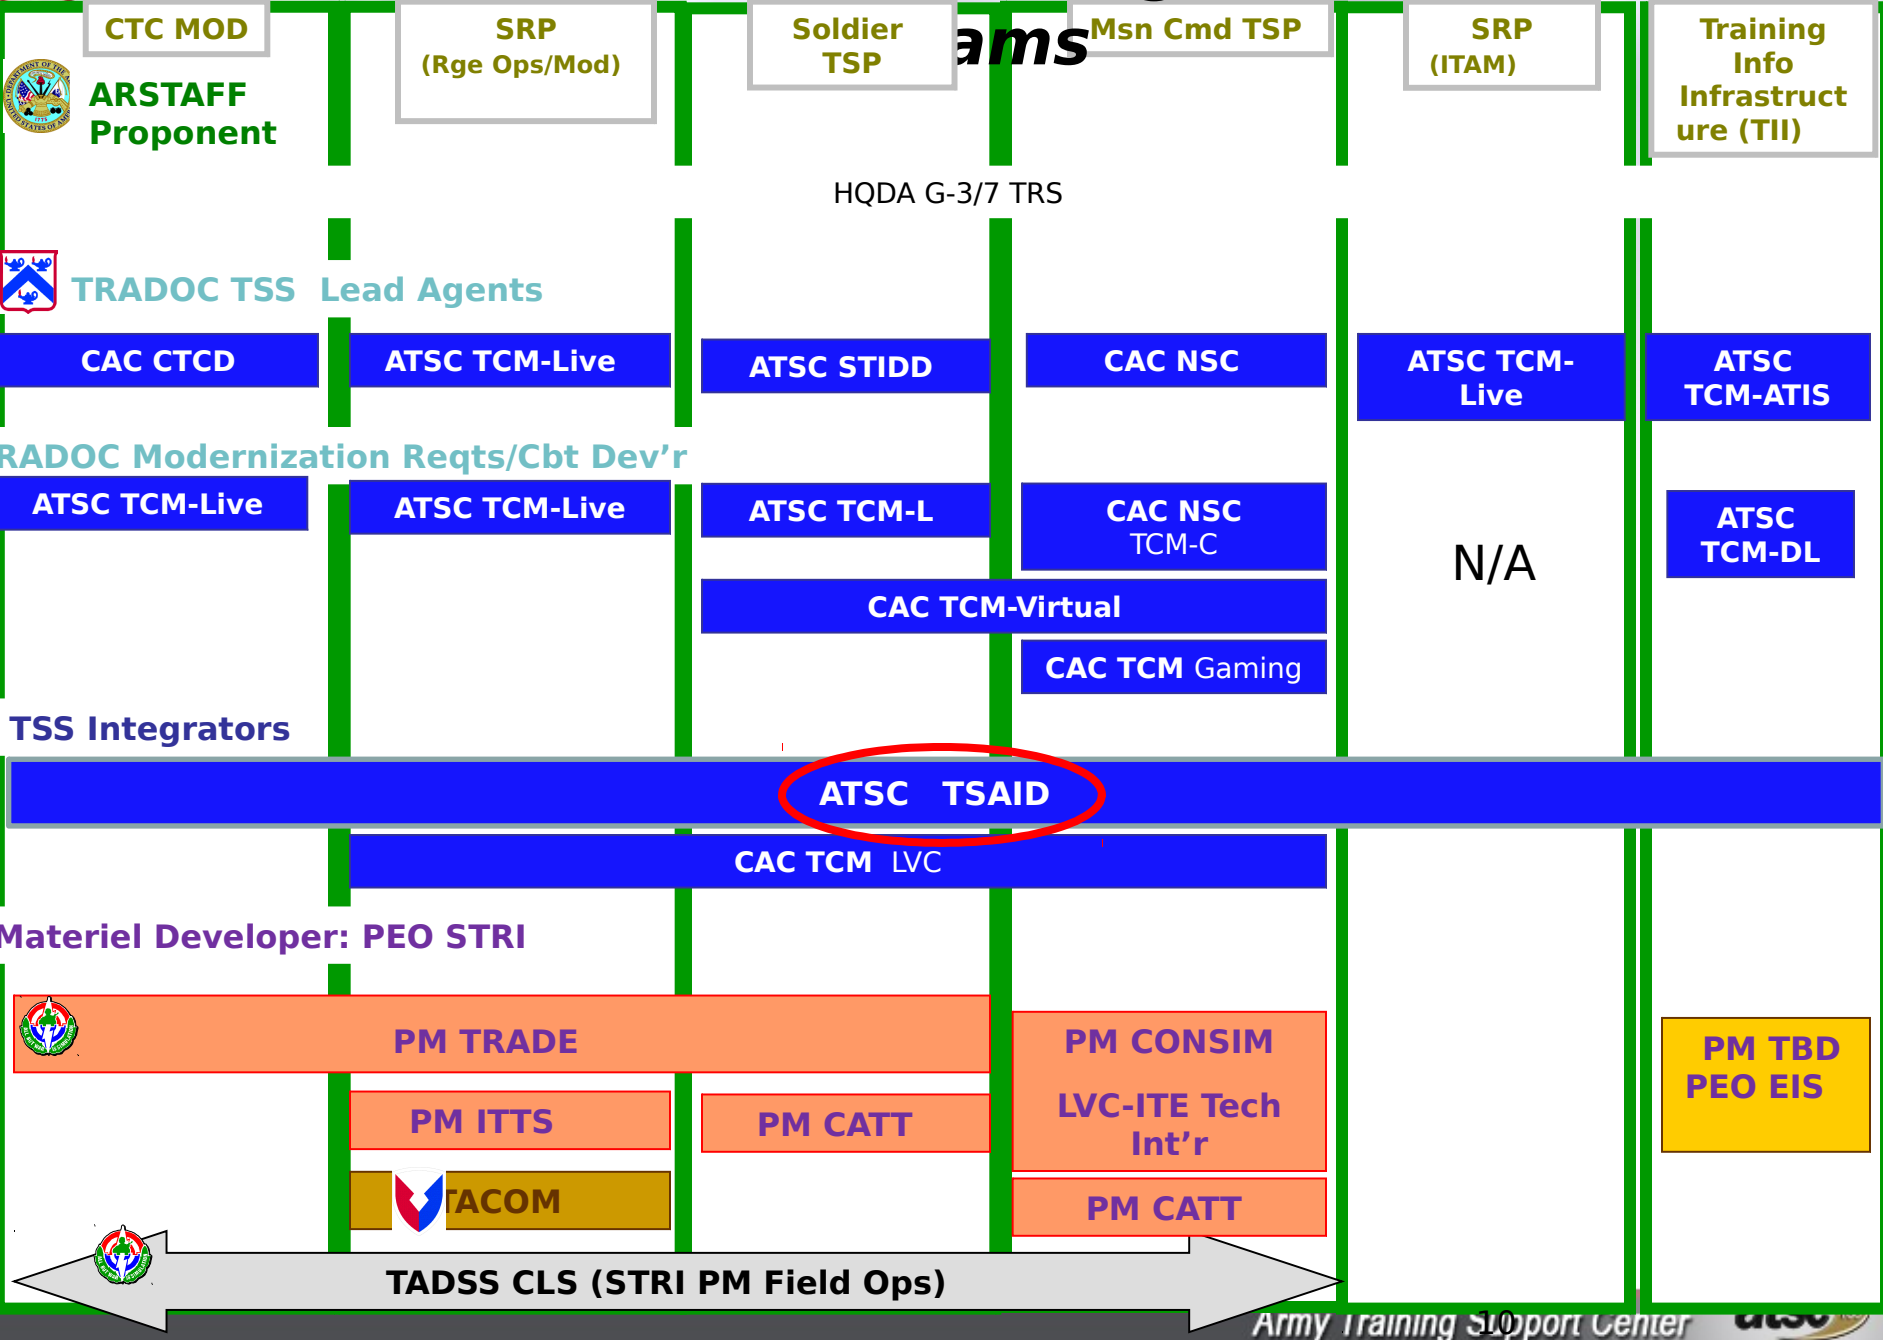

Implement a TSS Manpower & Contract Strategy

1. Standard Garrison Organization (SGO): Govt. Manning  
*Army-wide manpower reductions impacted TSS portion of Standard Garrison Organization (SGO) in IMCOM; TSS structure in EUR and PAC.*
2. Warfighter (WfF) Focus Contract: Maintenance of TADSS  
-  
PEO-STRI
3. TSS Services Contract : Other TSS Services – MICC-MCO & USACAC-Tng

## ***TSS Efficiencies (continued)***

1. Awarded to four (4) firms in the industry:
  - Parsons
  - Booz Allen Hamilton (BAH)
  - Calibre
  - URS
2. Cost Savings Benefit: Reverse auctioning process has potential to drive cost down as requirement will be competed among 4 vendors.
3. Streamlined processing: Task Order process vs. Full Source Selection process
4. Decrease potential for protest, Contractors already in place
5. Contract management is centralized, less work for requiring activity

# ***Training Support Services Office (TSSO)***

**Serves as the Program Office with oversight for the execution of the Sustainable Range Program (SRP) and Training Support Systems (TSS) contract vehicles.**

**The contracting officer representatives (CORs) conduct:**

- Pre-award acquisition planning, program analysis**
- Post-award contract management task ordering procedures**
- Contractor verification**
- Invoicing**
- Contractor performance assessment duties**

# **Training Support Services Office (TSSO)**

## Office Functions

- **Acquisition Planning (Data Requirements)**

- Requirements Determination
- Market Research
- Cost Estimating
- Risk / Trade-off Analysis
- Source Selection Procedures
- Technical Evaluation Boards

- **Invoicing**

- Log maintenance
- Error / Issue Resolution via Computerized Accounts Payable System (CAPS)
- WAWF approval

- **CAC Card Trusted Agent for Contract through the Contractor Verification System**

- Coordinate need with On-site CORS
- Collect Contractor information
- Initiate CAC Card application in CVS
- Query CVS weekly for CAC Card revocations, renewals, approvals, etc.
- Coordinate return of revoked cards and turn them in to security for coding and disposal

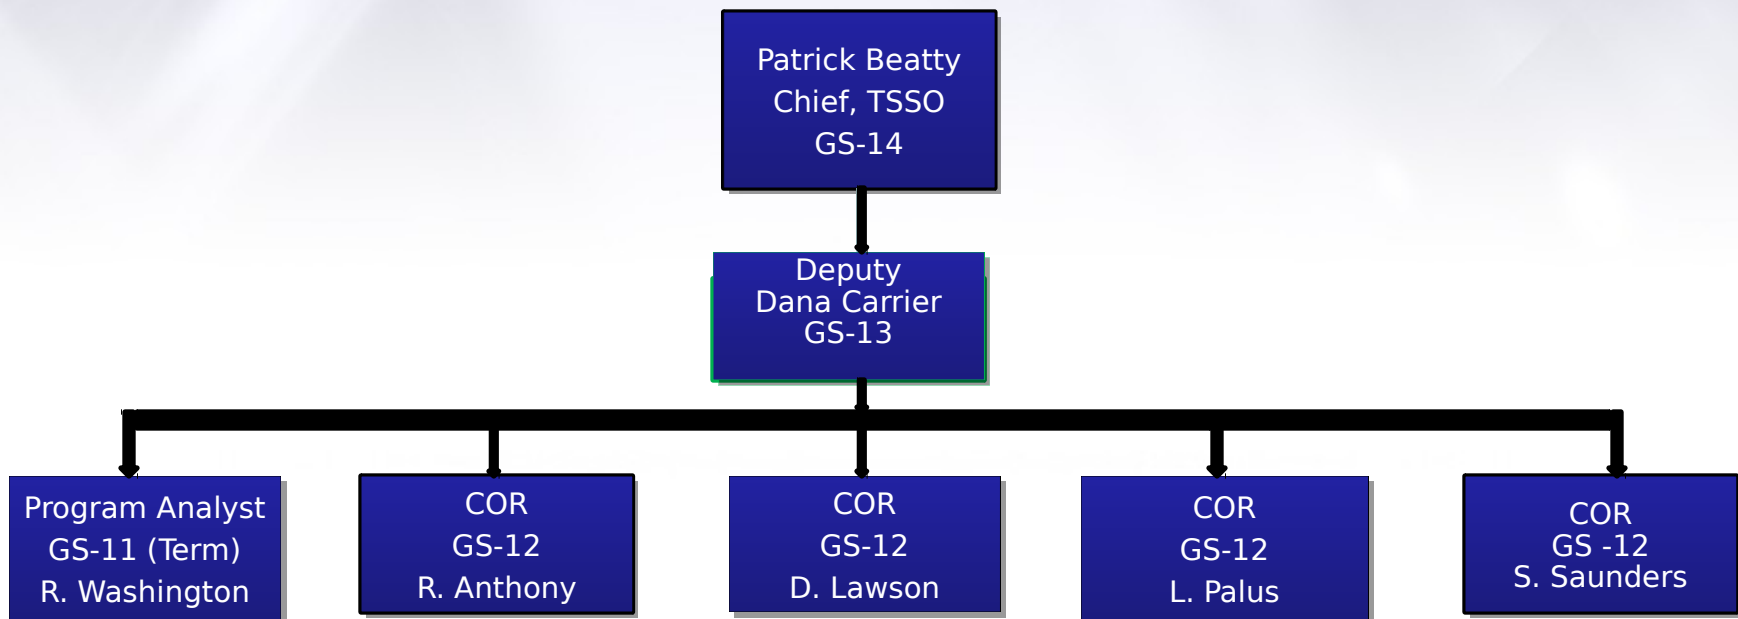

- **Modifications**

- Conduct contract management functions for all mods (i.e., Can include, POP extensions, additional scope of work, reduced scope of work, adjustment of funds, administrative )

- **Contract Management**

- SOPs
- Review / Edit PWS packages
- Review SA packages for completion
- File and Log set-up for each TO
- Enter requirements into GFEBS
- Provide package to MICC to establish an RFP (SA, MIPR, IGCE, PWS, and QASP)
- Coordinate On-site COR technical review of proposals
- Prepare proposal packages for On-site COR / source selection review
- Request MIPRs to support requirements
- Coordinate issue of award with MICC-MCO, RMD, and On-site COR
- Establish Task Order Kick-Off Meeting
- Establish post award log
- Prepare on-site COR memorandum and CAC Card LOIs for on-site CORS signature
- Provide 90-120 day reminders for options / follow-ons.
- Evaluate Contractor's performance via Contractor Performance Assessment Reporting System (CPARS)

# ***Training Support Services Office (TSSO)***

# Task Order Timeline (less than \$10M)

**Total Calendar Days** → Day 0 Day 1-8 Day 9-25 Day 26-40 Day 41-45 Day 46-52 Day 53-56 Day 57-60

Factors which may extend processing time:

- Number of task orders being worked simultaneously
- Number of edits and re-work between On-site COR, TSSO, MICC
- Complexity of task orders
- Availability of TEB members
- Availability of funds
- Changes in MICC processing guidelines

# Task Order Timeline (greater than \$10M)

Total Calendar Days	Day 0	Day 1-20	Day 21-29	Day 30-59	Day 60-81	Day 82-91	Day 92-112	Day 113-123
---------------------	-------	----------	-----------	-----------	-----------	-----------	------------	-------------

Factors which may extend processing time:

- Number of task orders being worked simultaneously
- Number of edits and re-work between On-site COR, TSSO, MICC
- Complexity of task orders
- Availability of TEB members
- Availability of funds
- Changes in MICC processing guidelines

**TSSO WORK**  
**1 SEPT 2011 - 15 MAR 2012**

**TASK ORDERS**

<u>TO</u>	<u>AWARDED</u>	<u>WORKING</u>	<u>BASE MODS</u>	<u>TO MODS</u>	<u>CLOSE OUT</u>
TSS	25	12	10	63	
SRP		6		135	
Total	25	12	10	69	135

**Award/IGCE Amount: 72M Option Years = \$144.5M**

**Total \$216.5M approximately 43% of ceiling**

**\*\*Number decrease based on change to allowable option years from 4 to 2 and cancellation of four task orders**

**INVOICES**

<u>TO</u>	<u>INVOICING/MSR</u>
TSS	74
SRP	151
TOTAL	221

**CAC CARDS ISSUED (NEW) 6 MONTH VERIFICATION**

330      127      203

**OTHER:** 150 SRP Task Orders still open that will be closed through end of FY12, CPARS submission,

**GFEB Transition, Training, Kick-off Meetings, MICC coordination, Misc.**

**Cancelled Task Orders - 5 were cancelled by requiring activity after packets were initiated.**

# Awarded Task Orders

ITEM	Task Order Title	ITEM	Task Order Title
<b>Bundle #1</b>	LVC-IA Support Operations: Ft Bliss, Campbell, Hood	<b>13</b>	ITAM Support MEDCOM: Camp Bullis
<b>Bundle #2</b>	Training Support Enterprise (TSE) Analysis and Integration Support: Ft Eustis	<b>14</b>	ITAM Support: FT Bragg
<b>Bundle #3</b>	SRP Systems Tools/Sustainment and Maintenance: Ft Eustis	<b>15</b>	ITAM Coordination and Field Support: Fort Drum
<b>Bundle #4</b>	GIS Support (SRP): A.P. Hill	<b>16</b>	ITAM Program Support: Joint Base Lewis-McChord
<b>5</b>	DPTMS ITAM Support: Ft Knox	<b>17</b>	USARPAC MSE: HI Range Division Range Support Projects Hawaii
